

Technical Support LifeCycle EOL/ESL/EOSL

Change Update

EOL : End Of Life

EOSL: End Of Support Life

ESL : Extended Support Lifecycle

Document Version 6.9.2
Revised on 31 May 2023

Cut-Off Dates for EOL, EOSL and ESL

Product	Version	Release Date	EOL	EOSL	ESL
Ambience/ Repertoire	2023.x	01 Apr 2023	01 Apr 2028	01 Apr 2033	01 Apr 2033
Ambience	2022.x	01 May 2022	01 May 2027	01 May 2032	01 May 2032
Ambience	2021.x	30 Apr 2021	30 Apr 2026	30 Apr 2031	30 Apr 2031
Ambience	2020.x	01 May 2020	01 May 2025	01 May 2030	01 May 2030
Ambience	4.6.x	01 Jan 2019	01 Jan 2024	01 Jan 2029	01 Jan 2029
Ambience	4.x.x	01 Apr 2015	01 Apr 2020	01 Apr 2025	01 Apr 2025
Repertoire	2022.x	01 Jun 2022	01 Jun 2027	01 Jun 2032	01 Jun 2032
Repertoire	8.10.x	01 Feb 2022	31 Dec 2024	31 Dec 2024	31 Dec 2024
Repertoire	8.8.0	18 Nov 2016	18 Nov 2023	31 Dec 2024	31 Dec 2024
Repertoire	8.7.x	17 Apr 2015	17 Apr 2020	31 Dec 2024	31 Dec 2024

* No patches/upgrades will be applied to all Akka libraries from 01 Sep 2023 onwards due to changes in Akka's commercial licensing terms: <https://www.lightbend.com/akka/license-faq>

POLICY DEFINITIONS

EOL: Cut-off date for accepting new support incidents for development of patches for bug fixes. Feature enhancements can be requested but the release schedule and version are at full discretion of Elixir. Releases will not be initiated after this date, except for bug fixes for customers on ESL.

ESL: Cut-off date for accepting new support incidents for development of patches for bug fixes to cover an extended period beyond EOL. Feature enhancements can be requested but the release schedule and version are at full discretion of Elixir. Releases will not be initiated after this date.

EOSL: Cut-off date for providing technical assistance to cover an extended period beyond EOL. Different from ESL, this support package does **NOT** include developing of patches. Instead, it is mainly to provide assistance in workarounds or in migrating to a supported version.

RELEASE DATE: Official date of release is based on the English version of the product. International versions are subjected to local partners' official release date for their respective versions. Alternate language builds may have been released on a different date.

Disclaimer: The information contained in the online policies and similar documents on this Web site represents the current view of Elixir Technology as of the date they are posted. Due to changing market conditions and adaptations needed to work with our customers and partners, these documents should not be interpreted as legally binding commitments, but rather as indicative documents subject to change occasionally. Similarly, we cannot guarantee that any information in such documents will be error-free or kept up to date after they are posted.

Migration Advisory for Elixir Ambience

Customers using Elixir Ambience 3.x ~ 4.x/2020 ~ 2022 are advised to migrate/upgrade to Ambience 2023 as there will be no further patches/upgrades to the versions of Akka framework libraries from 01 Sep 2023 onwards due to changes in Akka's commercial licensing terms:

<https://www.lightbend.com/akka/license-faq>

What is the Akka framework?

Akka's messaging framework is used in Ambience 3.x ~ 4.x to send concurrent task messages within an application at runtime while Akka's HTTP libraries are used for web services in Ambience 2020 ~ 2022 .

The Akka framework will be fully replaced by Elixir's proprietary web services framework from Ambience 2023 onwards.

What if I choose to continue using Ambience 3.x ~ 4.x/2020 ~ 2022 after 01 Sep 2023 onwards?

Customers who choose to continue using Ambience 3.x ~ 4.x/2020 ~ 2022 can do so. However, there will be no further patches/upgrades to the Akka framework libraries from 01 Sep 2023 onwards.

Migration Advisory for Elixir Repertoire

Customers using Elixir Repertoire versions 8.x and below are advised to migrate/upgrade to Ambience 2023 as there will be no further patches/upgrades to the current Repertoire 8.x libraries due to Java 8 dependencies.

Repertoire 8.10.1 is planned to be the final release of the Repertoire 8.x series and architecture.

What if I choose to continue using Repertoire versions 8.x and below after 31 Dec 2024?

Customers who choose to continue using Elixir Repertoire versions 8.x and below can do so as-is. However, there will be no further patches/upgrades to the Repertoire libraries after their respective EOL dates.

Migration Paths for Ambience 4.x

Ambience 4.x

- Report module

Recommended migration

- Repertoire 2023 or
- Ambience 2023

Ambience 4.x

- Report module
- Ad Hoc module
- Dashboard module

Recommended migration

- Ambience 2023

Migration Paths Ambience 202x and Repertoire

Ambience 202x

- Any module

Recommended migration

- Ambience 2023

Repertoire (any version)

- Any module

Recommended migration

- Repertoire 2023

If Not Migrating

Ambience 4.x, 202x

- Any modules

Not migrating

- No new Akka library upgrade/updates

Repertoire 8.x and below

- Any module

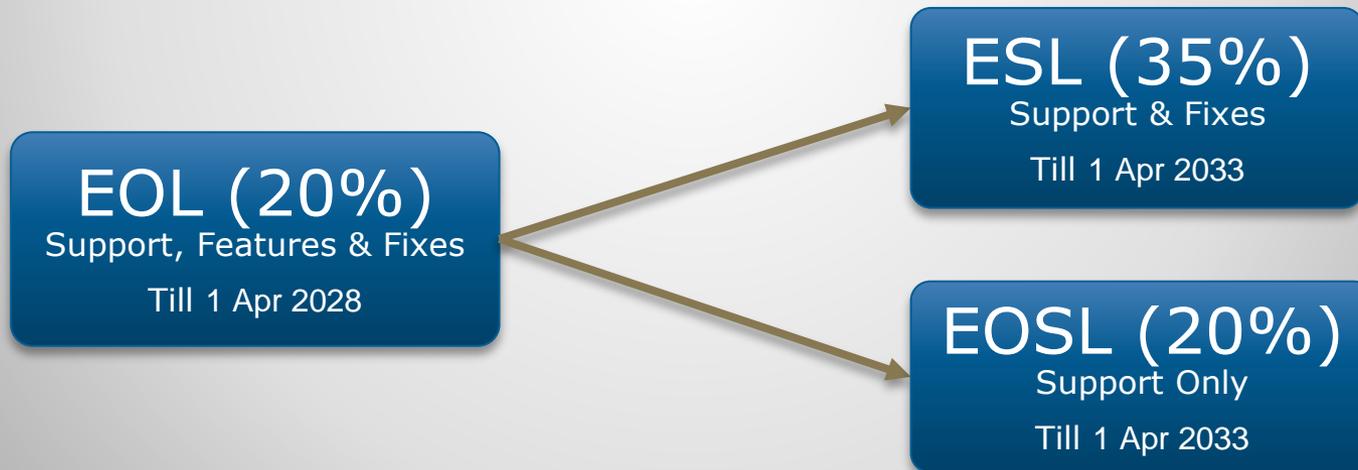

Not migrating

- No further upgrade/updates

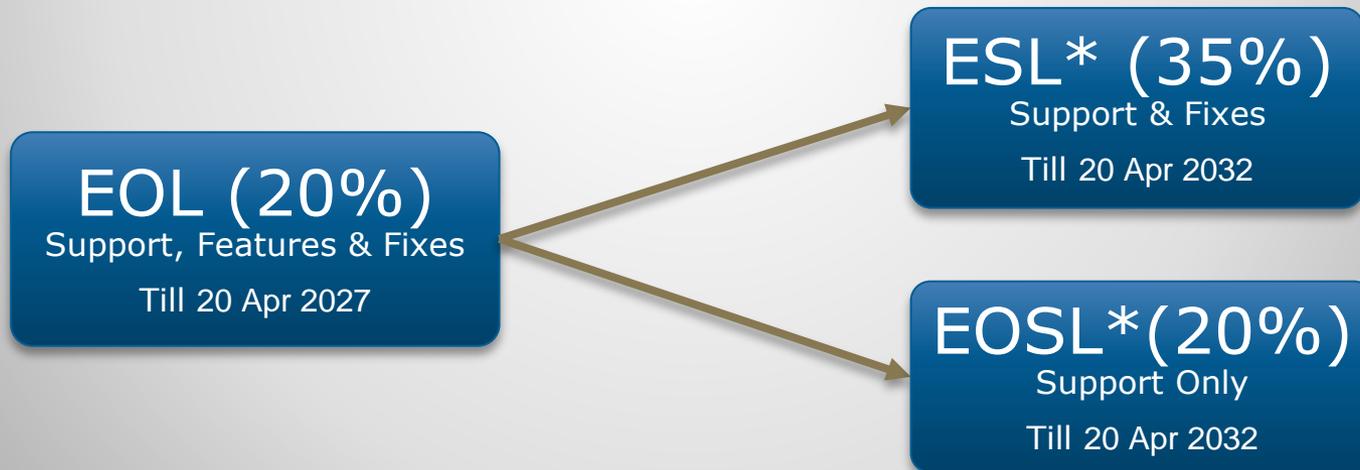

Ambience/Repertoire Version 2023.x
